

**STATEMENT FROM REPUBLICAN CANDIDATES  
IN THE PRIMARY RACE FOR U.S. CONGRESS, FLORIDA DISTRICT 10**

June 4<sup>th</sup>, 2022

To the People of Florida District 10,

We the below signed are current candidates in the Republican primary race for U.S. Congress District 10.

For decades the Left has been manipulating voters with lies, especially minority voters, into thinking that the Democrat Party has their best interest at heart. Furthermore, for the past several years they have been trying to convince voters that their party is the party of reason and responsible governance.

None of this is true and now more than ever, the Leftwing agenda is sieging our communities and when they are not targeting our children, they are taking advantage of them. Just as we saw this past week with Maxwell Frost, a radical Democrat primary candidate for U.S. Congress District 10. He dishonestly acquired access to a private event with David Rubin and Governor Ron DeSantis. In a clear attempt to win publicity, he plagiarized the tactics of the shameful Beta O'Rourke, who recently shouted down Texas Governor Gregg Abbott at a conference during the immediate aftermath of 19 children and 2 adults being murdered. Frost also utilized the death of children to bring himself attention at this gathering in an unruly, dishonorable, and chaotic manner.

We have had enough and reject radicals like Frost and what they are doing to our communities and our country. The very people who have brought us to a near recession with record high inflation are now screaming for more power and more of your rights. We realize that the fight is too great and the cost too high, which is why we have signed this joint letter.

Recognizing the enemy is the Left, for the remainder of our campaigns, we will focus on them and not attacking each other. We will reject and not engage in any ad hominem attacks on fellow Republicans competing for the nomination we mutually seek.

Finally, we will publicly endorse any candidate below signed during the general election, should they win our party's nomination.

**To flip Florida District 10 to the party of Frederick Douglass, we must be and will be united now. E Pluribus Unum! It is time to save our community and country from those who seek to destroy it.**

Humbly at your service,

Willie Montague
